Meeting with Jodi and Robin (2/8/22)
First meeting

Considering switching project to Art loan program improvements.
 Current site: https://sites.google.com/kenyon.edu/artloan/artworks
Example sites (goal):

Williams College Museum of Art Collection Explorer - http://wcma-explorer.williams.edu/
Affordable Art (showing same print in different settings) -
https://affordableart.com/artworks/natasha-kumar-1-indian-woman-cosmic-change-unframed#
Minneapolis Museum of Art (compares size of the object to a tennis ball or baseball) -
https://collections.artsmia.org/art/3947/the-beet-harvest-camille-pissarro
MIT's Art Lending page - https://www.mitartlending.com/ (the by the numbers page has some
data visualizations https://www.mitartlending.com/by-the-numbers-1)

IDEAS:

- Art Loan
- AR (?)
-
- Size of the piece
-
- Selection process automation
- New pieces added frequently
- Make a new database from scratch
- Auto categorization and description generation
-
- Try regular updates (prototyping)
